Mission Statement

The mission of Cleburne Adventist Christian School is to assist in putting first in the students' lives a relationship with God, and the service which follows. This school exists to provide an environment whereby young people can be shaped to follow the high standards of Christ's example. This institution will help further and strengthen the relationship between church and the school, empowering the students to grow stronger mentally, physically and spiritually.

Philosophy

We believe that through the use of the Holy Scriptures and Spirit of Prophecy, students will gain a growing knowledge of (and love for) the Creator. Each student will be given opportunities to accept Christ as their Savior and allow the Holy Spirit to transform their lives.

Although academics play a large part in the ability of students to succeed in becoming independent, responsible adults, we feel that it is meaningless without the knowledge of God's love and the service to others that Christ exemplified with His life.

We are dedicated to providing a staff who is consecrated to Christ and who demonstrates by example the fundamental principle of love.

Objectives

Our goals are:

- To assist students in development of their spiritual, mental and physical growth.
 - To prepare students for their next academic step, to be of service to others and the community in which they live, and for their future here and in the New Earth.
 - To challenge students to always strive to do their personal best, to never give way to fears and doubts, to always follow the "Golden Rule", and to ever be obedient to the laws of God and man.
-
